EDUCATION

MediCaps University
B.Tech in Computer Science

Indore, MP
Sept 2022 - Present

Chameli Devi Public School
Primary and Secondary Education

Indore, MP
June 2018 - May 2022

EXPERIENCE

Yash Technologies
Python Developer Intern

Indore, MP
Jan 5, 2026 - Present

- Learning and implementing core Python concepts including lists, tuples, dictionaries, sets, and functions.
- Learning to Write clean and structured Python programs following industry best practices.
- Developing logical problem solving skills using Python data structures.
- Preparing to build an end-to-end Python application.
- Planned tech stack includes Streamlit for frontend, Python backend logic, and SQL database connectivity.

PROJECTS

Jerry – Personal AI Assistant | *Python, Gemini API*

July 2025

- Built a desktop-based personal AI assistant capable of voice and text interaction using the Gemini API.
- Implemented real-time speech recognition and text-to-speech for hands-free user interaction.
- Designed a lightweight GUI using Python + HTML/CSS for smooth user interaction.
- Added support for system commands such as opening applications, web search, date, time, weather, and news retrieval.
- Implemented streaming AI responses with chat history persistence for improved user experience.

ExpenseFlow – Expense Tracker Web App | *Flask, HTML, CSS, MySQL*

April 2025

- Developed a full-stack expense tracking web app with category-wise expense management and visual analytics.
- Integrated MySQL for user authentication and data management.
- Exported data as PDF and visualized expense trends.
- Implemented user registration and secure login using hashed passwords for data privacy.

Uber Data Analysis | *Python, Pandas, NumPy, Seaborn, Matplotlib*

Jan 2025

- Analyzed Uber ride data to identify peak hours and high-demand zones.
- Performed temporal analysis to determine demand distribution by hour, day, and month.
- Created heatmaps and bar charts to visualize regional demand and ride frequency.
- Derived insights into customer behavior and demand fluctuations.

TECHNICAL SKILLS

Languages: Python, C++, SQL

Libraries/Tools: NumPy, Pandas, Matplotlib, Seaborn, OpenCV

APIs & Platforms: Gemini API

Technologies: Flask, HTML, CSS

Databases: MySQL

CERTIFICATIONS

100 Days of Code: Python Bootcamp – Udemy

NumPy, SciPy, Matplotlib & Pandas A-Z : Machine Learning – Udemy

Introduction to Programming using Python – Kaggle

Python Basics – HackerRank

SQL Basics – HackerRank
