SUMMARY

Motivated Computer Science Engineering student with strong skills in Python, Django, and web development. I enjoy building practical projects like chatbots and simple applications that help solve real-life problems. Quick learner, consistent, and always eager to explore new technologies through hands-on practice.

EDUCATION

Shri Vaishnav Vidyapeeth Vishwavidyalaya, Indore

2022 – 2026 (Pursuing)

Bachelor of Technology in Computer Science Engineering

TECHNICAL SKILLS

Programming Languages: Python, C, C++

Web Development: HTML, CSS, Bootstrap, Django

Tools & Technologies: GitHub, VS Code

Core Competencies: Problem Solving, Web Development Basics, Quick Learning

PROJECTS

Arogya AI – Medical Chatbot

2024

Python, Django, Basic ML Concepts

- Developed a medical chatbot that provides general health-related information and suggestions.
- Implemented secure login and OTP verification for user authentication.
- Added file upload support allowing users to upload medical reports for simple automated analysis.
- Provided home remedies, guidance, and a history page to check past health checks.
- Built using Python Django with a clean rule-based response system.

CERTIFICATIONS

- C & C++ Certification
- Software Engineering & Agile Development (Google)
- Introduction to Generative AI (Google)
- Google Cloud Skill Boost – Arcade Member
- Deloitte Australia – Data Analytics Job Simulation (Forage)
- Google Foundations: Data, Data, Everywhere

LEADERSHIP & ACTIVITIES

- Actively involved in coding and development activities during academic projects.
- Guided juniors in Python basics and small project building.
